

“ONE PUNCH CAN KILL”

ONE PUNCH CAN KILL LICENSED PRODUCTS

ONE PUNCH CAN KILL Licensed Products is an initiative to reduce incidents of alcohol fueled violence by developing anti-violence products for licensed venues.

Two distinct lines have been created carrying the widely recognised ONE PUNCH CAN KILL message and Bruce Steensen's parting words "JUST LET IT GO".

The licensed product range includes, wrist bands, bumper stickers, stubby Coolers, coasters, bar runners and three sizes of industrial floor mats, made in Australia in partnership with Mats R Us.

The licensed products have been produced as a preventive measure to reduce incidents of harm from intoxication including alcohol fueled violence and to communicate two very important messages to young people in Queensland.

The ONE PUNCH CAN KILL message communicates the serious consequences of an assault, while "JUST LET IT GO", delivers a key message to all patrons and the public that violence is of no value to our society.

“JUST LET IT GO”

- Bruce Stenson

ONE PUNCH CAN KILL LICENSED PRODUCTS

“JUST LET IT GO”, mate, were the last words spoken by a lovable Queenslander character Bruce Wolfe Steensen before he was struck by a single punch that was to end his life. At 53 Bruce had lived a good life. He grew up having being instilled with a strong sense of social justice by his mother who herself had learnt such values from her grandmother. Bruce grew up kicking a footy and continued to play the game he loved till the day he died. He was a larrikin, a bloke who was charmed with the ability to put a smile on even the most sour face.

Alcohol fueled violence is a sense act, one which robs people of their liberties, rights and freedoms. IT creates pain and heart ache, leaves nothing but destruction and despair and destroys lives of many innocent people. This violent anti-social behavior,

tears holes in the fabric of our society, hurts our communities and robs us all of people who are loved.

“JUST LET IT GO”, was the parting last words of Bruce Steensen but the wisdom contained in his short but poignant saying needs to be heard by anyone who thinks that violence is an acceptable social behavior. That’s why Bruce’s words have been developed into a new anti-violence campaign that aims to get Bruce’s message to the young people who need to hear it.

The “JUST LET IT GO”, licensed products have been designed to place Bruce’s words in nightclubs, pubs and clubs, where alcohol is served to act as a preventative measure to reduce the risk of harm from alcohol fueled violence.
